Creating thoughtful food

YOUR EXTENDED ARM IN THE KITCHEN
At Orkla Foods Sweden we would like to consider ourselves as your extended arm in the kitchen. Our ambition is to create great food that is up-to-date and requested by the consumers. Orkla Foods Sweden has a long tradition of food and the craftsmanship behind it. We often say that we are creating thoughtful and honest food. This means, first and foremost, care about the raw materials and it applies to everything from Swedish cucumbers, beets and potatoes to the unique autumn herring that is caught only for a few weeks at Lofoten in Norway. The honesty means that we are actively working to contribute to human health and wellbeing.

ENVIRONMENTAL AND CLIMATE ISSUES
Our ambition is to be an important part of the society of sustainability. This means that we are actively working to reduce the negative impact on the environment and climate. A conscious use of resources (both our own and others) governs everything we do and it applies to raw materials and packaging as well as energy and water. The goal is always to contribute to sustainable agriculture and fisheries.

KNOWLEDGE BASED
We actively research and strive to improve the nutritional content of existing products and at the same time develop new nutritional products. For this work, we collaborate with universities and have close contact with dietitians and other experts.

POLICIES
We use the Swedish nutrition recommendations, as well as our own nutritional policy, as a base for our work. We also work according to the Global Standard for Food Safety (BRC) and Orkla Foods Food Safety Standard, both of which are based on the principles of HACCP (Hazard Analysis and Critical Control Point) regarding food security. We fulfill the Environmental Management Council’s criteria for animal products in terms of livestock. These are some of the organizations we support and whose policies we strive to follow in our work:
All you need is heat
A variety of ready meals that don’t require anything except heat before you enjoy them. Perfect for those who like to focus on other things in life than cooking.

It’s all about the base
Products that create a great base at your dinner table. Add whichever ingredients or spices you like and you are good to go.

Treasures of the sea
Our precious oceans are literally filled with valuable life that give us a great opportunity to eat both healthy and delicious food.

Make it through the day
Products that give you a great start on your day and desserts that creates a magical finale at your dinner party. And of course all the snacks you need in between.

Add the final touch
Everybody knows the importance of adding that special something to make the dinner turn from ordinary into magnificent. Let our condiments do the trick.

Fall in love with fruits and berries
A lot of the fruits and berries that we use to create our jams and marmalades are actually handpicked, and they are always filled with vitamins and love.

Quench your thirst
No meal is complete without something to drink. Luckily for you we have a great selection of drinks made from all kinds of delicious fruits and berries.

Wherever you are, near or far
Many of our products have already been adapted to other markets around the globe. See if there is something you like or maybe something that you miss.
All you need is heat

Pressed for time at lunch or perhaps completely exhausted when you get home from work in the evening? No worries. We have lots of great ready meals that will give you both a varied diet and a full stomach. You just have to add a little heat.

Our soups are very popular as lunches and there are of course many different varieties from several of our beloved brands. Why not enjoy an extra healthy soup from Paulúns for lunch tomorrow? They are even called “Super Lunch”. Or maybe you would prefer fish? Thai? Goulash? Organic Tomato & Grilled Pepper? Like we just said, there is wide variation to choose from.

The large variation also applies to the other products within our range of ready meals. Choose between pizza, pie, pasta, Indian and Thai in all shapes and sizes. All you need to do is heat, eat and enjoy. Leave the rest to us.

Who said that cooking has to be tedious and time consuming?

It’s all about the base

A good and solid base makes it so much easier for you to succeed in the kitchen. At the same time, you also get the opportunity to show off your own personal touch by adding the condiments and spices that you like. Within our range of products you will always find fresh commodities and we are constantly striving to develop new modern products while taking good care of and improving our precious classics.

For example, we have Chef’s Hash which becomes crazy delicious with a fried egg and a couple of slices of beetroot. And why not try it with one of our spicy ketchups too? Yummy and simple. Also, there are tasty Swedish meatballs and numerous potato products, such as mash, hash browns, dices, french fries, pancakes, gratins, cakes, croquettes, wedges, and so on. You can also find pasta sauces and casserole bases that can transform any dish into a true masterpiece.

If you have a solid ground to stand on, then you can handle most things in life. In the same spirit, we want to create products that gives you a pleasurable feeling of comfort and confidence in the kitchen.

Treasures of the sea

Our greatest source of inspiration is the ocean’s own richness of tastes. Maybe this is one of the reasons why we are Scandinavia’s leading producer and distributor of value-added seafood products. We also do our best to try to protect and nurture the oceans responsibly with great consideration for the future. Protecting the marine environment is a natural part of our business and we also know that concern about raw materials brings quality to the products.

We offer a great range of seafood products and one of them is our classic marinated herring. Herring is a genuine and healthy delicacy that can be enjoyed on a piece of crispbread, as an exciting starter or served as it is on a buffet table. You can also find premium caviars and toppings as well as spreads with our family favorite “Kalles Kaviar” as a frontrunner. Or perhaps discover exciting products like Tuna Xpress, fish quenelles and smoked mussels.

Dive in and find your own special gems among all of the treasures that the sea has to offer.

Make it through the day

It is said that breakfast is the most important meal of the day, and we are inclined to agree. A good start sets the tone for the whole day and with our breakfast range from Paulüns you will start your engines in both a healthy and a yummy way. Did you know that we always sweeten these products with berries and fruits instead of sugar? A little tastier. Much healthier.

But even if you have laid the foundation with a solid breakfast, it is important to keep your hunger at a good level throughout the day. Unfortunately, we are living in a time and age were people tend to rush between deadlines, but that is no excuse for skipping that all important snack in between meals. Us Swedes call it "mellanmål" and we have solved this life puzzle by creating smart snack solutions for those on the go. For example, why not enjoy a HavreFrutti?! Delicious and filling oats that also provide energy. We have even included a spoon in the package. Like we said - smart.

Last but not least we have the desserts. Absolutely vital, some argue, but even if you are not among the fanatics, you surely would agree that it does put an extra flavor to life. At Orkla Foods Sweden you will find everything from gorgeous cakes for the birthday party to delicate vanilla sauces that gives your apple pie that extra "umph". Dig in, drool and indulge.

Add the final touch

Our brand Felix is a true classic when it comes to dinner condiments and taste enhancers. Pickled gherkins and beetroots are delicacies that go perfect with pretty much any food dish. Meatballs with mashed potatoes, gravy and lingonberry jam just isn’t the same without some pickled gherkins on the side. And you wouldn’t even dream of leaving out the sliced beetroots when you are eating Chef’s Hash with a fried egg and ketchup.

Speaking of ketchup, this is yet another front-runner within the Felix brand. Felix ketchup is found in most Swedish homes and the range has actually expanded quite a lot in the last few years. You can now find variations with less sugar and salt, with black pepper or with hot chili. There is also a whole new range of barbecue ketchups, each one with its own distinct flavor.

Among our condiments you will also find a whole range of sauces and dressings for many different occasions. We can also provide you with taste enhancers like cucumber relish, soy, chili sauce and tomato paste, which means that you never have to cook another insipid meal ever again.

The great thing about jam is that it is equally good at every meal of the day. It is therefore a must-have on every well-laid table.

At breakfast it gives you an extra kick as a spread on your sandwich. Later at lunch it serves as an excellent taste enhancer to your meatballs together with potatoes and gravy. When it is time for dessert the possibilities pretty much explode. For example, you can serve the jam on top of your ice cream or why not put a big spoon full of jam next to your pancakes together with some whipped cream!? Even at snack time it fulfills a purpose. Just take a look at our RisiFrutti range where jam of course is included.

The great variations of flavors, and the large amount of occasions when jam is needed, makes it almost impossible to resist. This also means that it is easy for everyone to find a favorite of their own. Love in a jar, simply put.
